The Meiji Group entered into the final year of TAKE OFF 14, the Group's Medium-Term Business Plan ending March 2015. During FYE March 2015, we are strengthening and expanding existing businesses, fostering growth businesses, and improving profitability based on our priority theme of higher profitability and strategic investments for future growth.

In the Food segment, we focused on structural reforms and diligent cost reduction efforts in our Dairy, Confectionery, and Healthcare and Nutritionals businesses in order to combat increasing procurement costs for raw materials and energy.

(2) Adoption of Special Accounting Methods for Preparation of Quarterly Consolidated Financial Statements

Tax expenses are calculated by rationally estimating the effective tax rate after application of tax effect accounting to income before income taxes for the consolidated fiscal year, which includes the current quarter under review, then multiplying income before income taxes by the estimated effective tax rate.

Income taxes-deferred are shown included in income taxes.

(3) Changes in Accounting Policy, Changes in Accounting Estimates, and Retrospective Restatements Changes in Accounting Policy

(Application of accounting standards related to retirement benefits)

Beginning from the first three months of the current consolidated fiscal year, the Group adopted the provisions of Paragraph 35 of the Accounting Standard for Retirement Benefits and Paragraph 67 of the Guidance on Accounting Standard for Retirement Benefits (ASBJ Statement No.26, May 17, 2012) and the Guidance on Accounting Standard for Retirement Benefits (ASBJ Guidance No. 25, May 17, 2012). Under this new accounting policy, the Group has revised its method of calculating retirement benefit obligations and service costs. The Group has replaced the straight-line attribution basis with the benefit formula basis for the method of attributing expected benefit to periods.

In accordance with the transitional application as provided in Paragraph 37 of the Accounting Standard for Retirement Benefits, beginning with the start of the first six months of the current consolidated fiscal year, the Group has taken the effects of the changes in calculation method for retirement benefit obligations and service costs directly to retained earnings.

As a result, assets related to retirement benefits as of the beginning of the first six months of the current consolidated fiscal year increased by 174 million yen, liabilities related to retirement benefits increased by 1,428 million yen, and retained earnings decreased by 791 million yen.
