## 1. Qualitative Information

(1) Explanation Concerning Operating Results

Meiji group entered the inaugural year of Medium-Term Business Plan for FYE March 2019-2021. Based on our basic concept of Address strategic issues continuously and Challenge for the further growth, we began to promote our growth strategy for Expand share and achieve high revenues in core businesses, Expand aggressively in overseas markets and establish growth platform, Propose new value in health care domain, Continue structural reforms and resolve specific business issues in each business, and Enhance Meiji Group management platform and promote CSR.

During the FYE March 2019, we expand sales by focusing management resources on core segments and growth segments both in the food and pharmaceutical domains as we work towards the goals of our 2020 Medium-Term Business Plan. Meanwhile, we aggressively expand business in overseas markets. Market conditions are difficult in both segments. The food segment faces rising logistics and personnel expenses while the pharmaceutical segment is severely impacted by NHI pricing revisions. Amid such environments, we manage expenditure effectively and improve productivity.

These factors resulted in net sales of JPY 950.698 billion (up 1.5\%, year on year), operating income of JPY 79.604 billion (up $10.3 \%$, year on year), and ordinary income of JPY 80.903 billion (up $8.9 \%$, year on year) during the first nine months of fiscal year ending March 2019. Net income attributable to shareholders of parent company was JPY 61.893 billion (up $22.0 \%$, year on year).

On July 2, 2018, Meiji Holdings and Meiji Seika Pharma Co., Ltd., our business subsidiary, acquired $49 \%$ of the shares of KM Biologics Co., Ltd., to make KM Biologics a consolidated subsidiary. KM Biologics took over the main business operations of The Chemo-Sero-Therapeutic Research Institute in December 2017.

■ Fresh and Fermented Dairy business (Yogurt, drinking milk, beverages, etc.)

- Net sales decreased year on year. Net sales of Meiji Bulgaria Yogurt increased year on year thanks to contributions from revamped plain yogurt, but net sales of functional yogurt decreased year on year.
- Operating income decreased year on year due to decreased revenues as well as increased logistics expenses.
- Processed Food business (Cheese, butter and margarine, cream, ice cream, frozen food, etc.)
- Overall net sales increased year on year. Net sales of Meiji Hokkaido Tokachi Camembert Cheese and fresh cream for professional use were favorable. Net sales of ice cream increased year on year thanks to contributions from Meiji Essel Super Cup series.
- Operating income increased significantly year on year due to increase in sales of our mainstay products.

■ Confectionery business (Chocolate, gummy, chewing gum, etc.)

- Net sales decreased significantly year on year due to the sales price reduction because of commercial transaction system revised in April 2018, and decreased revenues from chocolate.
- Operating income decreased year on year due to decrease in sales despite reducing promotion expenses.

■ Nutrition business (Sports nutrition, infant formula, enteral formula, beauty supplement, OTC drugs, etc.)

- Net sales increased year on year thanks to the favorable growth of SAVAS. Also, Meiji Mei Balance series increased year on year.
- Operating income were largely unchanged year on year. Sales promotion expenses increased, but this was compensated for by higher revenues from mainstay products.
- Overseas (Overseas subsidiaries, exports)
- Net sales increased significantly year on year. Net sales of infant formula in Taiwan were favorable. Also, net sales of businesses in China increased year on year thanks to favorable growth of dairy products especially drinking milk.
- Operating income increased significantly year on year thanks to subsidiaries in China.
- Taiwan Meiji Food Co., Ltd. was newly consolidated in April 2018.

■ Other domestic subsidiaries (Feedstuffs, livestock products, sugar and corn sweeteners, logistics, etc.)

- Sales were largely unchanged year on year. Sales of our sugar trade subsidiary and our livestock products subsidiary decreased, but this was compensated for by increased revenues from our logistics subsidiary and our feed subsidiary.
- Operating income decreased significantly year on year due to lower revenues from our livestock subsidiary.

2) Pharmaceutical segment

- Net sales increased significantly year on year. Although sales were impacted by NHI pricing revisions enacted in April 2018, sales volume for mainstay products grew in Japan. Strong growth of overseas subsidiaries and sales of KM Biologics consolidated in July 2018, also contributed.
- Operating income increased significantly year on year. Sales growth of our mainstay products, procurement cost savings and cost reduction in promotion expenses offset the impact of NHI pricing revisions. Sales of human vaccine from KM Biologics also contributed.

## (3) Notes Concerning Quarterly Financial Statements

(Notes Concerning the Premise of a Going Concern)
Not applicable.
(Notes Concerning Significant Changes in Shareholders' Equity (if any))
Not applicable.
(Adoption of Special Accounting Methods for Preparation of Quarterly Consolidated Financial Statements)
Tax expenses are calculated by rationally estimating the effective tax rate after application of tax effect accounting to income before income taxes for the consolidated fiscal year, which includes the current quarter under review, then multiplying income before income taxes by the estimated effective tax rate.
Income taxes-deferred are shown included in income taxes.
(Changes in Accounting Policy)
(Change in accounting policies with unclear distinction from change in accounting estimates)
(Change in depreciation method for tangible fixed assets)
As of the first quarter of the current consolidated fiscal year, we changed to the use of the straight-line method as the method of depreciation for the tangible fixed assets of the manufacturing plants of confectionery products, etc. in the food segment and its domestic consolidated subsidiaries. In the past, the declining balance method was adopted except buildings acquired on or after April 1, 1998 and building accessories and structures acquired on or after April 1, 2016.

During the 2020 Medium-Term Business Plan for FYE March 2019-2021, the first stage of our 2026 vision, we will expand our market share and increase profit in our core business. For example, market for health conscious chocolate is expanding and we have high competitive advantage in the market. Therefore we concentrate management resources on core business and set up the plan for capital investment. After we examined the operation status of production facilities, we estimated we can operate our facilities stably for longer period. Accordingly we believe applying straight-line method is appropriate for our future business.
As a result of this change, compared to the previous method, operating income, ordinary income, and net income before income taxes for the first nine months of the current fiscal year increased by JPY 3,391 million, respectively.

## (Additional information)

(Application of the Partial Revisions to Accounting Standards for Tax Effect Accounting)
We apply the Partial Revisions to Accounting Standards for Tax Effect Accounting (Corporate Accounting Standards No. 28, February 16, 2018) as of the first three months of the current consolidated accounting period. As such, deferred tax assets are indicated under Investments and other assets, and deferred tax liabilities are indicated under fixed liabilities.

Note: From the second quarter of FYE March 2019, we will indicate earnings and plans for the biological agents business (KM Biologics).
Note: The difference between the total for net sales and operating income for each business as indicated on this page and pharmaceutical segment (consolidated) net sales and operating income indicated on page 3 represents intersegment eliminations.
Note: On February 7, 2019, we revised the figures of Net Sales and Operating Income of Japan and Overseas for FYE March 2019.
